<https://www.facebook.com/team3nity>

I am a freelance Web Developer for 5 years now. I like building things specially in Web Development. I like new challenges and ideas. I have spent most of my career in Web Development. I started my journey way back in my college days, I have been exposed to HTML-CSS/CSS3, JavaScript, jQuery, Bootstraps native PHP. Now, I am studying OPP PHP, PHP Frameworks, WordPress React and NodeJS because these tools teach me more to write better code. I always keep a beginner's mind even though I'm already 6 years in the industry because I believe that there is always a room for improvement. I specialize in building business websites that may help to achieve client's marketing goals without breaking their budget.

Every web design project includes the following:

Responsive Design:

- Your website will adapt it's layout based on the size of the viewer's screen. This ensures that your website will function properly on computers, smartphones, and tablets.

Reliable Hosting:

- I host my client's with hosting provider. I've found Hosting Provider to offer the best reliability and security at affordable rates

Content Updates and Back Up:

- To be used effectively, your website should be updated depends on your request and a per services fee includes publication of update content and graphics and back Up at your per request.

Skills:

Skills: JavaScript, NodeJS, React, PHP, WordPress, MySQL, HMTL-CSS/CSS3, jQuery, jQuery-ui, jQuery-mobile, Java, C++, VB6/VB.net
